CANADA
SCHOOL ATTENDANCE AND YEARS OF SCHOOLING

This bulletin presents final population figures of the 1941 Census by school attendance, years of schooling and sex for Canada and the provinces, rural and urban, and for urban centres of 15,000 and over. It forms part of an initial series of reports being issued for each province separately, and for Canada as a whole, as final results become available.

The first bulletin in this series for each province, (Bulletin No. A-1), gives the final population by sex, for counties or census divisions, and also for cities, towns, villages, and rural sub-divisions. Bulletin No. A-1 for Canada as a whole summarizes the population, by sex, for all counties and census divisions, rural and urban. Other provincial bulletins in the series classify the population according to sex, by conjugal condition, age, racial origin, religion, birthplace, immigration and citizenship, language, schooling, etc., for the following areas: (a) the province as a whole, separating the rural and urban population, and giving comparative figures for 1931; (b) counties or census divisions, by rural and urban; and (c) urban centres of 5,000 and over. The Canada bulletins show these data for the areas as mentioned above in the first paragraph.

Cross-classifications of the population will appear in further series.

For most areas the increases in population shown in the final population figures as compared with the figures given in the preliminary announcements of population are due to the addition of men in the Armed Services not enumerated at their permanent homes on June 2, 1941. It should be noted also that the final population compilations were made after the completion of the transfer of persons, recorded on Absentee Household and Closed Dwelling Cards, to their permanent residence.

Definitions of terms

Rural and Urban:- The term "urban" in the Census applies only to incorporated cities, towns and villages. The population of all unincorporated towns and villages is included in the rural population.

School Attendance and Years of Schooling:- Persons shown "At School" in the following tables are those who had attended school any time between September 1, 1940 and the date of the Census, June 2, 1941.

It will be noted that the number of children under 15 years is shown by five-year age groups in the tables of this bulletin. Since most children reporting school attendance are between 5 and 15 years of age, the number in this age group may be compared with the number reporting school attendance for rural and urban localities, provinces and urban centres of 15,000 population and over. Similarly, since most of the persons reporting less than five years of schooling are children under 10 years of age, the latter may be subtracted from this schooling group in order that the population 10 years and over with less than five years of schooling, may be compared by type of locality.

Price: 10 cents

CANADA
FREQUENTATION SCOLAIRE ET ANNEES A L'ECOLE

Ce bulletin présente les chiffres définitifs du Recensement de 1941 sur la population rurale et urbaine, par fréquentation scolaire, années à l'école et sexe, pour le Canada et les provinces et pour les centres urbains de 15,000 âmes et plus. Il fait partie d'une série initiale de rapports émis pour chaque province séparément, et pour l'ensemble du Canada, à mesure que les chiffres définitifs seront connus.

Le premier bulletin de cette série pour chaque province (Bulletin no A-1) donne la population définitive par sexe, pour les comtés ou divisions de recensement, ainsi que pour les cités, villes, villages et subdivisions rurales. Le Bulletin no A-1 pour l'ensemble du Canada est un résumé de la population rurale et urbaine, par sexe, pour tous les comtés et divisions du recensement. Les autres bulletins provinciaux de cette série classifient la population d'après le sexe, l'état conjugal, l'âge, l'origine raciale, la religion, le lieu de naissance, l'immigration et la citoyenneté, la langue, l'instruction, etc., pour les régions suivantes: (a) l'ensemble de la province, distinction faite entre population rurale et population urbaine, avec chiffres comparatifs pour 1931; (b) comtés ou divisions de recensement, population rurale et urbaine; et (c) centres urbains de 5,000 et plus. Le bulletin portant sur le Canada donne ces chiffres pour les régions mentionnées ci-dessus au premier paragraphe.

Des classifications recoupées de la population paraîtront dans des séries subséquentes.

Pour la plupart des régions, les augmentations de population indiquées dans les chiffres définitifs en regard des chiffres des états préliminaires sont dues à l'addition des membres des forces armées qui n'avaient pas été énumérés à leur domicile permanent le 2 juin 1941. Il faut aussi noter que la compilation définitive de la population a été faite après que les personnes, inscrites sur les fiches de ménage absent ou d'habitation fermée, eurent été transférées à leur domicile permanent.

Définitions des termes

Rural et urbain:- Le terme "urbain" pour les fins de recensement ne s'applique qu'aux cités, villes et villages incorporés. La population des villes et villages non incorporés est comptée avec la population rurale.

Fréquentation scolaire et années à l'école:- Les personnes données comme "à l'école" dans les tableaux suivants sont celles qui ont été à l'école un temps quelconque du 1er septembre 1940 à la date du Recensement, le 2 juin 1941.

Il sera noté que le nombre d'enfants de moins de 15 ans est indiqué par des groupes quinquennaux d'âge aux tableaux de ce bulletin. Comme la plupart des enfants qui déclarent leur fréquentation scolaire ont de 5 à 15 ans, le nombre de ce groupe d'âge peut être comparé au nombre qui déclare sa fréquentation scolaire dans les localités rurales et urbaines, les provinces et les centres urbains de 15,000 âmes et plus. De même, comme la plupart des personnes qui déclarent moins de cinq années à l'école sont des enfants de moins de 10 ans, ces dernières peuvent être soustraites de ce groupe afin que la population de 10 ans et plus avec moins de cinq années à l'école puisse être comparée par type de localité.

Prix: 10 cents
